

Myanmar Bridge Planning

Overview

A series of major bridge infrastructure projects in Myanmar, financed and supported by Japan and South Korea, are nearing completion despite ongoing political unrest in the country. Recent progress includes the joining of the Atran Bridge, marking a key milestone in Myanmar's transport connectivity. THE Yangon-Dala Bridge, officially named the Myanmar-Korea Friendship Bridge, is more than a piece of infrastructure. It represents decades of aspiration, years of engineering effort, and the promise of a brighter future for communities on both sides of the Yangon River. Its opening in February. as “the Project”) to the Government of Japan. Through series of discussion, Ministry of Construction (MOC) and JICA concluded the Record of Discussion (R/D) in January 2016 to implement the Project focusing on capacity development on construct n construction of bridges and concrete structures. At the briefing hall, the Union Minister and party heard reports.
