

Myanmar Tray-type Cable Tray Specifications

AI Overview

Cable trays in Myanmar are available in various types, sizes, and materials, suitable for residential, commercial, and industrial applications, with options for customization and compliance with international standards.

Types of Cable Trays

- Ladder Cable Trays:** Made from industrial-grade aluminum or steel, offering superior strength and durability, ideal for heavy-duty industrial and commercial installations.
- Perforated Cable Trays:** Promote airflow to prevent overheating, suitable for electrical systems requiring cooling and ventilation.
- Galvanized Cable Trays:** Hot-dip galvanized for corrosion resistance, widely used in construction, automotive, and electrical industries.
- Modular and Custom Trays:** Available in customized dimensions, materials, and designs to meet specific project requirements.

Standard Dimensions

Cable trays in Myanmar are manufactured in a range of widths to accommodate different cable loads:

- Widths:** 50mm, 75mm, 100mm, 150mm, 200mm, 225mm, 250mm, 300mm, 350mm, 400mm, 450mm, 500mm, 550mm, 600mm, 700mm.
- Sheet Metal Thickness:** Varies depending on load requirements and material type.
- Length:** Typically modular, allowing easy extension and installation.

Materials

- Galvanized Steel:** Provides corrosion resistance and structural strength.
- Stainless Steel:** Offers durability and resistance to harsh environments.
- Aluminum:** Lightweight and strong, suitable for ladder-type trays.
- Fiberglass:** Non-conductive and corrosion-resistant, used in specialized applications.

Features and Benefits

- Cost-efficient and reliable:** Reduces installation and maintenance costs.
- Easy installation:** Modular design allows fast assembly with minimal labor.
- Enhanced safety:** Protects cables from physical damage, dust, and environmental hazards.
- Improved airflow:** Perforated designs prevent overheating and maintain optimal cable performance.
- Customizable:** Trays can be tailored in siz...
