

NEL Optical Module

Overview

NEL, a leading supplier of coherent Digital Signal Processor (DSP) solutions to system and module manufacturers worldwide, provides key components for 100G-and-beyond coherent transceivers, ExaSPEED Family (DSP chips for optical communication). Photonics of NTT Innovative Devices. NID offers a vast. 2X1 optical rotator and combiner : Integrate polarization rotator and PBC into one chip using highly reliable Silica-on-Si PLC technology. Whether you are creating a 100-Gbps or 400-Gbps, small form-factor pluggable (SFP) module, SFP+ transceiver, XFP module, CFP, X2/XENPAK module. plifier Module Box Thø NEL OGAI5-B arrayed (SOA) is type, The OGAt5-a includes electrical drivers with ECL interlace and a peltier type tar the tempe«alure SOAS, The Straight gale switch and 2 arrayed 2X2 optical Features High Gain High-speed switching nano second SOA driver with ECL thermo-modul. The NEL NLK1551SSC directly-modulated laser (DML) is a cost-effective solution for 10 Gb/s digital transmission of up to 50 km using traditional intra-city fiber links. The package contains a high-speed DFB laser chip, thermoelectric cooler, thermistor, optical isolator, and a rear-facet monitor. NEL MOS42AM 10G OC192 O / E converter from NEL Reference: MOS42AM is available for purchase, calibration and repair.
