

NEMA4X Mesh Cable Management Frame

AI Overview

The NEMA 4X Mesh Cable Management Frame offers corrosion-resistant, industrial-grade protection with a three-year warranty for indoor and outdoor applications.

Product Overview A NEMA 4X Mesh Cable Management Frame is designed to provide secure and organized routing of cables in harsh environments. The frame typically features stainless steel construction, ensuring resistance to corrosion, rust, and chemical exposure, making it suitable for both indoor and outdoor installations. The mesh design allows for ventilation and visibility while maintaining cable protection.

Protection and Standards NEMA 4X Rating: Provides protection against windblown dust, rain, splashing water, and corrosion, exceeding the standard NEMA 4 rating. IP66 Equivalent: Many stainless steel wireways and troughs meet IP66 standards, ensuring complete protection against dust ingress and powerful water jets. Material Quality: Stainless steel is often ASTM A967 passivated, enhancing durability in corrosive or industrial environments.

Installation and Compatibility Preassembled Frames: Some systems, like FRAMEWORKX®, offer preassembled stainless steel mesh frames, ready for installation in railing or cable management applications. Flexible Mounting: Frames can be mounted on walls, under desks, or integrated into existing structures, supporting both new builds and retrofits. Customizable Options: Frames are available in various profiles, geometries, and sizes to accommodate project-specific requirements.

Warranty Three-Year Warranty: Manufacturers such as Pro Metal Craft provide a three-year warranty on NEMA 4 and 4X enclosures, covering defects in materials and workmanship. This warranty ensures long-term reliability and peace of mind for industrial or commercial installations.

Key Benefits Corrosion and weather-resistant for harsh environments Secure cable routing with mesh ventilation Preassembled or customizable frames for easy installation Long-term reliability backed by a three-ye...
