

Network Rack Cable Management Fixtures

Overview

Cable management systems come in several types: raceways contain cables in rigid channels, horizontal managers segment connections at specific rack heights, vertical panels organize cables along the rack's length, and D-rings secure cables with minimal obstruction. Complete server/networking solutions with patented, easy-to-install cabling infrastructure. It is an all-in-one cable management solution consisting of 24 retractable Cat. Our innovative system enables 10x faster installation & maintenance and thanks to our Patchcatch it also allows up to 50% more space. Properly labeled cables allow IT staff to quickly trace, repair, or replace. It describes the structured, secure routing and documentation of all cables in a server or network rack. Wi-Fi 7 Access Points often require 10Gbps backhaul, and many.
