

New Price Quote for Flame-Retardant Cable Trays in Jordan

AI Overview

Flame-retardant cable trays in Jordan typically range from \$20 to \$100 per meter depending on material, type, and supplier.

Types and Materials

FRP (Fiberglass Reinforced Plastic) Cable Trays FRP trays are lightweight, corrosion-resistant, and self-extinguishing due to flame-retardant additives. They are suitable for industrial, petrochemical, and power projects. FRP trays are available in ladder and perforated types, with polyester or vinyl ester resin systems, and are widely supplied by companies like Shandong Huaxian and local distributors in Jordan.

PVC Flame-Retardant Cable Trays PVC trays, such as the ASOT PVC wiring ducts, are made from flame-retardant PVC and are ideal for electrical panels, solar setups, and industrial machines. They are lightweight, easy to install, and often sold in packs (e.g., 5 ducts of 1-meter length each) with protective covers.

Steel or GI Cable Trays with Flame-Retardant Coating Steel cable trays with galvanization or powder coating provide high strength and fire resistance. They are heavier than FRP or PVC but are commonly used in large-scale industrial and commercial projects.

Price Considerations

FRP Cable Trays: Approximately \$50-\$100 per meter, depending on resin type, ladder or perforated design, and supplier.

PVC Flame-Retardant Ducts: Around \$20-\$40 per meter for standard 45mm x 25mm ducts sold in packs.

Steel/Metallic Cable Trays: Typically \$40-\$80 per meter, depending on thickness, galvanization, and accessories. Prices may vary based on quantity, delivery, and installation services. Local suppliers in Jordan include MASEICO, Munir Al Ali & Sons, and Davos for Electrical Systems & Supplies, which provide both supply and installation services for industrial and commercial projects.

Additional Notes Accessories such as bends, brackets, and covers may add 10-20% to the total...
