

Nordic standard network cabinets

Overview

We offer deliveries of a wide range of standard modular cabinets with IP40 and IP55 protection; with 400 x 300 mm to 1,200 x 1,000 mm ground plan and 1,200 to 2,200 mm high. The cabinets may be assembled into either row or corner sets, using transition pieces. We design and manufacture intelligent electrical enclosures tailored for automation, energy distribution, and industrial control—ready for the demands of Industry 4. Our modular cabinet systems are engineered for flexibility and scalability perfect for customized solutions across sectors like. Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, reduce energy consumption, and enhance network reliability. * Monthly fees include the cabinet and the allocated maximum power (A+B). * Applicable to all cross-connects coming into/leaving Nasdaq's area **.
