

PLD Distribution Box Exterior

Overview

Modular distribution box with an inspection hatch. Designed for pipe connections on the top and side walls. The main body is made of galvanized sheet metal, with internal thermal and sound-absorbing insulation in open-cell polyurethane. The range of applications extends from pure energy distribution in buildings to building automation and through to industrial plants. SMART DISTRIBUTION BOXES FOR FLEXIBLE BUILDINGS. Suitable for both pole and wall mounting, our solutions include ABC distribution boxes, pole-mounted cut outs, outdoor service. The Walther combination outlet system uses standard NEMA wiring devices, IEC309 pin & sleeve connectors, CAM connectors, or practically any type of connector that meets your specific requirements. Best of all, overload protection is typically provided with built-in circuit breakers that are easily. Below, you will find the current product catalogues of the corresponding product category with types, order numbers, as well the associated specifications sheets for the given types.
