

Panama Power Distribution Box Model

Overview

Particularly compact and lightweight, the PANAMA HTTA-PTTA wall box facilitates the link between RRUs (Remote Radio Unit) and the BBU (BaseBand Unit). It also ensures the power supply of RRUs thanks to 2 different zones: one to manage fiber, the other to handle energy. Panama's strategic geographic position as a bridge between North and South America, combined with its world-renowned Panama Canal, positions it as a critical hub for international commerce and logistics. This unique positioning has driven substantial economic growth and infrastructure development. In order to optimize the connection of antennas, FOLAN has developed the PANAMA range of wall boxes. Our company has always.
