

Price Inquiry for Distribution Box Circuit Breakers

AI Overview

You can find affordable distribution box circuit breakers starting as low as \$6-\$15 for small units, with larger residential panels ranging from \$37 to \$120 depending on amperage and number of circuits.

Budget-Friendly Options

For small or portable distribution boxes, prices start very low:

- Miniature 2-5 way IP65 breaker boxes: \$6.50-\$15.98, suitable for small circuits or temporary setups (Walmart, eBay)
- Plastic 5-12 way indoor/outdoor distribution boxes: \$12-\$22, often with transparent covers for easy monitoring (Walmart)

These are ideal for workshops, RVs, or small-scale electrical projects.

Residential Load Centers

For home electrical panels, affordable options include:

- Square D Homeline 100 Amp, 6-space, 12-circuit indoor main lug load center: \$37-\$49, suitable for small homes or subpanels (Home Depot, Walmart)
- Eaton BR 125 Amp, 8-space, 16-circuit indoor main lug load center: \$46-\$88, a cost-effective choice for moderate electrical loads (Home Depot, Walmart)
- Square D Homeline 100 Amp, 12-space, 24-circuit indoor main breaker load center: \$74-\$135, providing more circuits for larger homes (Ace Hardware, SupplyHouse)

These panels include main breakers or main lug configurations and are UL-listed for safety.

Larger Panels and Value Packs

For higher amperage or more circuits, prices increase but value packs can save money:

- Square D Homeline 200 Amp, 20-40 space, 40-80 circuit panels: \$117-\$249, often including breakers and covers in a value pack (Home Depot, Amazon, eBay)
- Eaton 200 Amp, 40-80 circuit indoor main breaker load center: \$169-\$228, suitable for larger homes or light commercial use (Home Depot, Lowe's)

These panels are ideal if you need multiple circuits and want a complete setup without buying breakers separately.

Tips for Choosing Affordable Options

Match amperage to your home's electrical demand: 100-125 Amp for small homes, 200 A...
