

Price of 4-core Huijue optical cable

AI Overview

The price of a 4-core Huijue optical cable varies depending on supplier, quantity, and specifications, typically ranging from \$1 to \$5 per meter for single-mode cables. Overview Huijue 4-core optical cables are commonly single-mode FTTH cables designed for high-speed data transmission in telecommunications and internet networks (). They feature a 5.8mm outer diameter, reinforced with Fiber Reinforced Plastic (FRP) and yarn, making them suitable for both indoor and outdoor installations (). Price Range Retail or small quantities: Approximately \$1–\$3 per meter, depending on the supplier and shipping costs (). Wholesale or bulk orders: Prices can drop to \$0.8–\$2 per meter, especially when purchased directly from B2B suppliers or importers (). Factors affecting price: Cable length, single-mode vs multi-mode, additional protective layers, and regional shipping fees. Where to Buy B2B marketplaces: Platforms like Go4WorldBusiness list verified suppliers for bulk purchases of Huijue 4-core single-mode optical cables (). European suppliers: Price lists for Huijue composite optical cables are available through marketplaces like Europages, which connect buyers with German and EU suppliers (). Online retailers: Specialty fiber optic stores, such as ISPmart, offer 4-core FTTH cables with detailed specifications and shipping options (). Recommendations For small-scale installations, purchasing from online retailers ensures faster delivery and easier returns. For large-scale or commercial projects, contacting B2B suppliers directly can secure bulk discounts and customized cable lengths. Always verify cable specifications (single-mode vs multi-mode, outdoor/indoor rating) to match your network requirements. By comparing multiple suppliers and considering bulk options, you can find the most cost-effective solution for Huijue 4-core optical cables.
