

Price of Bahamas Broadcast Transmission Remote Monitoring Optical Splitter

AI Overview

Optical splitters for broadcast or remote monitoring in the Bahamas are available from approximately \$20 to \$50 USD, depending on type and specifications. Available Options Toslink SPDIF Digital Optical Audio Splitter (1x3) Splits one Toslink input into three outputs without quality loss Supports Dolby Digital, DTS 5.1, PCM Stereo, and LPCM formats Output distance up to 40 meters Includes fiber optic cable, USB cable, and manual Price: Fairly priced on Desertcart Bahamas with free delivery IPTV RF Broadband 2-Way Splitter Tested and certified for home and broadcast use Suitable for RF broadband and IPTV applications Price: Available on Desertcart Bahamas, typically in the \$20-\$30 USD range with free delivery Consumer Broadcast Splitters on eBay Includes 4-way video module splitters, XLR audio splitters, and SDI splitters Prices vary widely depending on brand and number of outputs, generally starting around \$25 USD Considerations Professional vs Consumer Grade: High-end broadcast transmission splitters for remote monitoring may cost more than consumer-grade optical splitters. For large-scale or commercial deployments, contacting suppliers like HUBER+SUHNER for RF video overlay and optical splitter solutions may be necessary . Shipping and Delivery: Desertcart Bahamas offers free delivery across the Bahamas and easy returns, making it convenient for local purchase . Compatibility: Ensure the splitter supports the required signal type (Toslink, SPDIF, SDI, or RF) and the number of outputs needed for your monitoring setup . For professional broadcast applications, prices may exceed the consumer range, and direct inquiry with specialized suppliers is recommended. For general remote monitoring or home broadcast setups, the \$20-\$50 USD range provides reliable options with local delivery in the Bahamas.
