

Price of Fireproof Cable Tray Boards in Democratic Republic of Congo

AI Overview

Fireproof cable trays in DRC typically range from \$2 to \$25 per meter, depending on material, type, and supplier. Price Overview The cost of fireproof cable trays varies based on material, design, and size. Common materials include galvanized steel, stainless steel, aluminum, and PVC, with galvanized steel being the most widely used due to its balance of durability and cost, while stainless steel offers higher corrosion resistance at a premium price. PVC trays are budget-friendly but less suitable for heavy-duty applications. Ladder trays: Ideal for heavy cables; higher cost due to robust construction. Solid-bottom trays: Provide full protection for sensitive cables; moderate to high cost. Wire mesh trays: Lightweight and ventilated; generally lower cost. The average price per meter ranges from \$2 to \$25, with bulk orders or project-based purchases potentially reducing the cost. Additional factors affecting price include coatings (HDG, powder-coated, pre-galvanized), shipping, and installation costs. Suppliers in DRC Several suppliers and manufacturers operate in the Democratic Republic of Congo: Brilltech Engineers Pvt. Ltd: Offers hot-dip galvanized cable trays with strong corrosion resistance and robust construction, suitable for industrial and construction applications. They provide custom solutions and export services within Africa. Trademo platform: Lists multiple cable tray manufacturers and suppliers in DRC, providing shipment details, trade volumes, and product specifications for sourcing options. Alibaba suppliers: Offer PVC, steel, and stainless steel fireproof cable trays with CE certification, suitable for bulk orders and international shipping. Recommendations For industrial or heavy-duty applications, prioritize galvanized or stainless steel ladder trays. For lightweight or indoor installations, wire mesh or PVC trays may be cost-effective. Contact suppliers directl...
