

Price of Square Head 24-Core Fiber Optic Reel

AI Overview

The price of a Square Head 24-Core Fiber Optic Reel varies widely depending on vendor, cable type, and reel length, typically ranging from \$500 to over \$2,000 per reel. Pricing Overview The cost of a 24-core fiber optic reel depends on several factors, including whether it is single-mode or multi-mode, armored or non-armored, and the length of the reel. For example, standard 24-core ADSS fiber optic cables are sold in bulk reels and are priced based on specifications such as tensile strength, water-blocking features, and outer sheath type. Per-meter pricing for 24-core fiber optic cables can range from \$1 to \$5 per meter, which translates to several hundred to a few thousand dollars for a full reel. Vendor Options Quantum Source offers a wide selection of fiber optic reels from brands like Superior Essex, Corning, Prysmian, and Commscope, with pricing available upon request or through direct inquiry. Mouser Electronics lists 24-fiber optic cables with datasheets and inventory, allowing buyers to request quotes for specific reel configurations. ME Fiber Optic provides 24-core ADSS fiber optic cables suitable for overhead transmission lines, with specifications that affect pricing. Recommendation To obtain the exact price for a Square Head 24-Core Fiber Optic Reel, it is best to contact suppliers directly or use their online quotation tools. Prices can vary based on reel length, cable type, and shipping location, so requesting a quote ensures accurate and up-to-date pricing. By comparing multiple vendors, you can also identify the best combination of quality, warranty, and cost for your specific application.
