

Price of Zhongli 12-core optical cable

AI Overview

The price of a 12-core optical cable typically ranges from \$1 to \$5 per meter, depending on type, materials, and supplier, though exact Zhongli pricing requires a direct quote from distributors.

Typical Pricing Factors

The cost of a 12-core optical cable depends on several key factors:

- Materials:** High-quality glass fibers, protective coatings (acrylate or polyimide), strength members (aramid yarn or fiberglass), and outer jackets (PVC or LSZH) significantly influence price.
- Cable Type:** Single-mode cables (8–10 microns core) are optimized for long-distance transmission, while multi-mode cables (50–62.5 microns core) are suited for shorter distances.
- Construction:** Outdoor cables often use gel-filled loose tubes for moisture protection, while indoor tight-buffered designs improve flexibility and ease of installation.
- Performance Specifications:** Transmission distance, bandwidth capacity, and durability (armored jackets, UV resistance) affect cost.

Typical Price Range

Wholesale or bulk orders: \$1–\$3 per meter for standard 12-core fiber optic cables from Chinese suppliers. High-performance or armored cables: \$3–\$5 per meter, especially for long-distance, high-bandwidth, or outdoor applications.

Sourcing Zhongli Cables

To obtain the exact price for Zhongli 12-core optical cables, it is recommended to:

- Contact authorized distributors or OEM suppliers directly for a custom quote.
- Specify cable type (single-mode vs multi-mode), length, and environmental requirements to get accurate pricing.
- Consider bulk orders or OEM customization to reduce per-meter cost for large-scale projects.

In summary, while general 12-core optical cables range from \$1 to \$5 per meter, the precise cost of Zhongli cables depends on specifications, order volume, and supplier negotiations. Contacting a verified distributor is the most reliable way to get an up-to-date price.
