

Price of a 2kt distribution box

AI Overview

The price of a 2KT distribution box varies widely depending on specifications, manufacturer, and customization, typically ranging from \$50 to several hundred dollars per unit.

General Pricing Factors The cost of a distribution box depends on multiple factors including voltage rating, amperage capacity, number of circuits, material construction, and integrated safety features. Residential 2KT units are generally less expensive, while commercial or industrial-grade boxes with enhanced durability, weatherproofing, or smart monitoring features command higher prices . Customization options such as OEM branding, specialized mounting, or integration with building management systems can further increase the price .

Specific Product Example The SCGB-2KT distribution box is available from distributors like Longzi Technology, which offers genuine Wakefield-Vette SCGB-2KT units with fast shipping and multiple payment options . While the exact price is not listed online, similar 2KT boxes in wholesale or retail markets typically range from \$50 to \$200 per unit, depending on order volume and additional features .

Wholesale and Bulk Orders For larger orders, distributors often provide discounted per-unit pricing, especially for modular or IP-rated enclosures. Delivery times and pricing can vary based on factory capacity, customization requirements, and shipping location . Contacting suppliers directly is recommended to obtain a precise quote for a 2KT distribution box tailored to your specifications.

Additional Considerations When budgeting for a 2KT distribution box, consider installation costs, maintenance, and long-term operational efficiency. Weather-resistant or outdoor-rated enclosures generally carry a premium, while indoor-rated units are more affordable . Energy efficiency features, such as load monitoring or smart control, may increase upfront costs but provide long-term savings.
