

Price of cable connectors for electric wells

AI Overview

Cable connectors and wiring kits for submersible well pumps typically range from \$10 to \$150 depending on type, length, and gauge. Typical Pricing Individual Connectors and Splice Kits: Basic butt connectors or waterproof splice kits for well pump wires generally cost \$10–\$30 per kit, suitable for small repairs or DIY installations (RPS Water Pumps). Complete Wiring Kits: Kits that include wire, connectors, and heat shrink tubes, such as the Everbilt 3-Wire Submersible Wiring Kit (150 ft of 12-gauge wire with 4 butt connectors and heat shrink tubes), are priced around \$50–\$70 at Home Depot. Submersible Pump Wire by Length: High-quality submersible pump wire sold in spools (25 ft increments) ranges from \$1.50 to \$3 per foot, depending on gauge (6 AWG to 12 AWG) and insulation type (direct burial, double-jacketed) (RPS Water Pumps, Aqua Science). Where to Buy Amazon: Offers a variety of submersible pump wires and connectors suitable for harsh conditions, including water and UV-resistant options. eBay: Provides a wide selection of electrical connectors for wells, often with free shipping and competitive pricing. Specialty Suppliers: RPS Water Pumps and Aqua Science supply professional-grade wires and splice kits designed for deep well applications, with certifications for durability and safety. Considerations Wire Gauge and Pump HP: Ensure the wire and connectors match the pump's horsepower and depth requirements. For example, 12-gauge wire is suitable for pumps 1 HP and under, while larger pumps may require 10 or 8-gauge wire. Waterproofing: Use heat shrink or waterproof splice kits to prevent corrosion and electrical failure in submersible applications. Length: Purchase wire in sufficient length to reach the pump depth plus extra for connections; spools are sold in increments (e.g., 25 ft). By selecting the appropriate gauge, length, and waterproo...
