

Price of circuit strips for distribution boxes

AI Overview

Circuit strips for distribution boxes typically range from \$10 to \$50 per pack or unit, depending on type, quantity, and supplier.

Overview of Options

Power Distribution Strips These are designed for professional electrical panels and distribution boxes. Suppliers like Newark Electronics offer a wide range of products from brands such as Hammond, Eaton, Tripp Lite, and Cyber Power Systems. Prices vary based on specifications, number of outlets, and features, with fast quotes available upon request.

Cover Strips for Fuse Boxes For protective or masking purposes, packs of 12 ABS cover strips are available on Amazon. Each strip measures approximately 11 x 5.2 x 1.6 cm and is compatible with standard module grids. These packs are suitable for renovations, system upgrades, or routine maintenance. Pricing for such packs generally falls around \$10–\$20 per pack, depending on the seller.

Distribution Box Series Power Outlet Strips Mouser Electronics lists Distribution Box Series Power Outlet Strips, which are designed for integration into distribution boxes. Prices are unit-based and vary with quantity, and detailed datasheets are available for technical specifications. Typical costs can range from \$15 to \$50 per strip, depending on the model and features.

Terminal Strips Terminal strips or blocks, which are sometimes used interchangeably with circuit strips for wiring connections, are available from suppliers like McMaster-Carr and Amazon. Prices depend on the number of terminals, material, and current rating, generally ranging from \$5 to \$30 per strip.

Key Considerations

Quantity: Bulk purchases often reduce the per-unit cost.

Material: ABS or other insulating materials affect durability and price.

Compatibility: Ensure the strip fits the module grid or distribution box type.

Supplier: Prices vary between distributors like Newark, Mouser, and Amazon. For precise pricing, it is recommended to check t...
