

# Price of distribution box lintel cover plate

## AI Overview

The price of a distribution box lintel cover plate varies depending on material, size, and supplier, typically ranging from £10 to £50 per unit for standard steel or insulated options.

**Overview** A distribution box lintel cover plate is used to protect and finish steel or concrete lintels in masonry construction, often providing a neat surface for plastering or insulation integration. These plates are commonly made from galvanized steel, stainless steel, or GRP (glass-reinforced polymer), with some insulated versions incorporating polystyrene for thermal efficiency.

**Factors Affecting Price**

- Material:** Galvanized steel is generally the most cost-effective, while GRP or insulated plates are more expensive due to enhanced thermal performance.
- Size and Thickness:** Larger or heavier-duty plates designed for wide openings or high-load lintels cost more.
- Supplier and Brand:** Leading UK suppliers like IG Lintels, Catnic, and Wade Building Supplies offer a range of cover plates, with trade pricing often lower than retail.
- Thermal Insulation:** Plates designed to meet Part L building regulations or Hi-Therm standards with insulation layers are priced higher due to compliance and energy efficiency benefits.

**Typical Pricing**

- Standard steel cover plates: £10–£20 per unit for domestic-sized lintels.
- Insulated or GRP plates: £25–£50 per unit depending on size and thermal rating.
- Heavy-duty or wide lintel plates: Prices can exceed £50 for commercial applications.

**Where to Buy**

- Builder Depot:** Offers a wide range of steel box lintels and accessories.
- Wade Building Supplies:** Stocks Catnic and Stressline lintels with compatible cover plates.
- IG Lintels:** Provides insulated and thermally efficient cover plates for compliance with UK building regulations.

For an exact price, it is recommended to contact suppliers directly with the specific lintel dimensions and material requirements, as prices vary by size, load rating, and insulation type.
