

Price of installing waterproof boxes and distribution boxes

AI Overview

Waterproof distribution boxes vary in price depending on size, material, IP rating, and configuration, typically ranging from \$20 to \$200 or more per unit.

Key Factors Affecting Price

- Size and Number of Ways:** Small compact boxes (e.g., 4–12 ways) are generally more affordable, suitable for residential or small commercial setups. Larger boxes with 20–39 ways or multi-layer configurations for industrial or photovoltaic applications cost more due to increased material and internal space.
- Material:**
 - ABS plastic:** Lightweight, cost-effective, and IP65 rated, commonly used for indoor/outdoor applications.
 - Polycarbonate (PC):** Offers higher mechanical strength and UV resistance, often used in harsh outdoor environments.
- Ingress Protection (IP) Rating:**
 - IP65:** Protects against dust and water jets; standard for most outdoor installations.
 - IP66–IP68:** Higher protection against water immersion, typically more expensive due to enhanced sealing and gaskets.
- DIN Rail and Internal Configuration:** Boxes with pre-installed DIN rails or multiple layers for terminal organization may increase cost. Custom layouts or pre-assembled kits are available from suppliers, often at a premium.

Typical Price Ranges

- Small residential/office boxes (4–12 ways, ABS, IP65): \$20–\$50 per unit.
- Medium industrial boxes (12–24 ways, PC or ABS, IP65–IP66): \$50–\$120 per unit.
- Large or specialized boxes (24–39 ways, multi-layer, IP66–IP68, UV-stabilized): \$120–\$200+ per unit.

Where to Purchase

- SinoBreaker:** Offers AT and HT series with IP65–IP68 ratings, UV-stabilized housings, and custom solutions.
- ETEK Electrical:** EKDB10 series, 4–39 ways, single/double/triple layers, suitable for industrial and photovoltaic applications.
- Amazon:** Offers smaller ABS IP65 boxes for residential and light commercial use.
- ZCEBOX:** Provides IP65 & IP66 rated boxes with CE & ROHS certification, including...
