

Price range of ladder-type cable trays in Zimbabwe

AI Overview

Ladder-type cable trays in Zimbabwe typically range from around USD 27 to USD 50 per standard 2.4-meter steel tray, depending on size, material, and supplier. Overview of Pricing Ladder-type cable trays are widely used for supporting electrical, control, and data cables in industrial and commercial installations. In Zimbabwe, standard steel ladder trays measuring 225mm wide and 2.4 meters long are priced at approximately USD 27.73 per tray. Prices can vary based on width, material (e.g., hot-dip galvanized steel, stainless steel, or PVC-coated steel), and supplier. Factors Affecting Price

Material: Hot-dip galvanized steel is common and moderately priced, while stainless steel or corrosion-resistant coatings increase cost. **Dimensions:** Wider trays or longer lengths generally cost more. Standard lengths are usually 2.4 meters, but custom sizes may be available. **Supplier and Brand:** Local suppliers like Brilltech Engineers and other Zimbabwean distributors offer both standard and customized trays, which can affect pricing. **Fittings and Accessories:** Elbows, tees, and other tray fittings are priced per unit and add to the overall cost of a cable tray system.

Typical Price Range Based on available data and supplier listings, the price range for ladder-type cable trays in Zimbabwe is roughly:

- Low end: USD 27–30 per 2.4-meter tray (standard steel, basic width)
- Mid-range: USD 35–40 per tray (wider or coated steel)
- High end: USD 45–50+ per tray (stainless steel, heavy-duty, or customized options)

Recommendations For accurate budgeting, it is advisable to contact local suppliers directly to confirm current prices, availability, and shipping costs, as prices may fluctuate due to material costs and import duties. Suppliers can also provide quotes for custom sizes or specific project requirements, ensuring the tray system meets both technical and budgetary needs.
