

Procurement of Fire-Resistant Molded Cable Trays in Slovenia

AI Overview

Fire-resistant molded cable trays in Slovenia can be procured from specialized manufacturers like Bevec d.o.o., Basor Electric, and Brilltech Engineers, with options compliant with European and international fire safety standards. Key Suppliers and Products Bevec d.o.o. manufactures cable trays suitable for industrial, transport, and infrastructure projects. Their trays range from 50 to 600 mm in width and 50 to 60 mm in height, with options in galvanized, hot-dip galvanized, stainless steel, or powder-coated finishes. Accessories, bends, and support systems are available to facilitate complex installations. Basor Electric specializes in fire-resistant cable trays designed to maintain circuit integrity during fires. Their products undergo rigorous fire resistance testing to ensure critical systems like smoke extractors, emergency lighting, and fire alarms remain operational. They follow standards for circuit integrity maintenance, including Px-R and R-PHX classifications, ensuring compliance with local and international fire safety requirements. Brilltech Engineers Pvt. Ltd. offers durable cable trays in Slovenia made from galvanized steel, stainless steel, and fiberglass. Their trays provide enhanced safety, improved airflow, and protection against environmental hazards. They also offer installation support, system design assistance, and compliance with industry standards. Procurement Channels For public or private projects, Slovenian tender platforms provide opportunities to procure cable trays through open procedures. Websites like Global Tenders and Slovenia Tenders list government and private procurement notices, including electrical infrastructure projects where fire-resistant cable trays may be required. Considerations for Procurement Fire Resistance: Ensure trays meet fire safety standards relevant to the project, such as maintaining circuit integrity for emergency systems. Material Selecti...
