

Qatar Secondary Distribution Box Model

AI Overview

Secondary distribution boxes in Qatar are available from manufacturers like Al Dana Switchgear, Alsiraj Qatar, Al Ayadi, and Bahra Electric, offering a range of models for indoor and outdoor applications with varying sizes, materials, and protection ratings.

Key Manufacturers and Models

Al Dana Switchgear provides custom-designed electrical power systems and secondary distribution solutions in Qatar. Their products include fully tested switchgear and distribution boxes suitable for industrial, commercial, and energy sector applications, with a focus on quality, reliability, and sustainability.

Alsiraj Qatar offers mobile thermoplastic distribution boxes made from PC/ABS, providing high impact resistance, thermal stability, dielectric strength, and chemical resistance. These boxes are suitable for both indoor and outdoor use and are available in various sizes and designs. They are ideal for industrial, commercial, agricultural, and public building applications.

Al Ayadi supplies enclosure boxes, DBs, and SMDBs with specifications such as IP66 protection, IK10 impact resistance, and standard RAL7035 color. These models are designed for robust protection in harsh environments and are suitable for mounting electrical components safely.

Bahra Electric provides Load Centers and distribution boards designed for indoor applications in residential and commercial buildings. Their boxes feature optimized size, robust structure, quick installation, and compatibility with BAHRA MCBs and MCCBs according to IEC standards. They emphasize safety, durability, and ease of maintenance.

Features to Consider

- Material:** Thermoplastic (PC/ABS) or metal enclosures for durability and chemical resistance.
- Protection Rating:** IP66 for dust and water resistance; IK10 for impact resistance.
- Applications:** Indoor, outdoor, industrial, commercial, and residential.
- Customization:** Many suppliers offer tailored solutions with specific sizes, mounting options, and integrated components.
- Certifications:** Compliance with IEC/EN standards ensures safety and reliability. These manufactur...
