

Recommended Manufacturers of US Smart PDU Control Boards

AI Overview

Top US manufacturers for smart PDU control boards include APC by Schneider Electric, Eaton, Raritan, Server Technology, and Belden, all offering advanced monitoring, outlet-level control, and DCIM integration. Leading Manufacturers

1. APC by Schneider Electric APC is a globally recognized leader in power management, offering smart PDUs with real-time monitoring, outlet-level control, and integration with DCIM tools. Their products feature surge protection, overload prevention, compact 1U designs, and EcoStruxure IT readiness for enhanced functionality. APC PDUs support remote management, allowing scheduled power cycles and rebooting of equipment, making them ideal for high-reliability IT environments.
2. Eaton Eaton provides Rack PDU G4 and other intelligent PDUs designed for energy efficiency, security, and redundancy. Their solutions include metered and switched PDUs with outlet-level monitoring, environmental sensors, and integration capabilities for centralized management. Eaton emphasizes modular designs and high-quality components suitable for data centers and industrial applications.
3. Raritan Raritan specializes in intelligent rack PDUs with inlet and branch circuit metering, outlet-level control, and overload warnings. Their PDUs integrate with DCIM software and KVM-over-IP solutions, offering high reliability and energy efficiency. Raritan's products are widely used in enterprise and colocation data centers.
4. Server Technology Server Technology manufactures switched, metered, and monitored PDUs with remote power control, real-time energy metering, and SNMP/Modbus integration. Their smart PDUs are designed for high-density environments and support automated power sequences, ping-based auto-reboot, and precise energy auditing.
5. Belden Belden offers a broad portfolio of PDUs with high-quality components and multiple installati...
