

Safety Accessories for Distribution Boxes

Overview

Components such as Miniature Circuit Breakers (MCB), Residual Current Devices (RCD), and Surge Protective Devices (SPD) are integral for circuit protection and fault prevention. Electrical distribution boxes play a vital role in safe power management. Built-in accessories enhance safety, enable monitoring, and support system. Various versions of distribution boxes, a large selection of materials, voltage ranges, rated currents and IP protection types / protection classes for indoor and outdoor use, as well as a wide range of accessories and tools such as WAGO plug-in terminals, crimping tools, cable ties, wire end. Independent power supply with build-in power source, directly draws power from the incoming end to avoid the risk of protection function failure caused by external power supply failure. The product range includes busbars, wiring bridges in various lengths, and protective ground and neutral conductor terminals. Screw connection with nut, contents: 2 pcs. It protects homes and industries from electrical hazards.
