

Single-mode fiber optic drop cable outdoor

Overview

• 04 Core Single-Mode Fiber Optic Drop Cable designed for outdoor FTTH (fiber-to-the-home) installations. • Armoured construction provides extra protection against external elements and physical. Drop cables are the critical connection between a service provider's distribution network and the end user's home or business. Designed to deliver high-speed data, voice, and video services directly to subscribers, drop cables ensure reliable, high-performance connectivity in fiber-to-the-home. Broadstick provides high quality fiber optic cables compliant with TIA 568-C. This cable offers. Special low-bend-sensitivity fiber provides high bandwidth and excellent communication transmission property. Two parallel FRP strength members ensure good performance of crush resistance to protect the fiber. Novel flute design, easily strip. Corning SST-Drop™ All-Dielectric Self-Supporting (ADSS) cables offer the ease of installation of standard ALTOS cable in an easy-access, single-tube design. The long-length ADSS version allows pole-to-pole span lengths ranging from 400 feet under NESC heavy ice and wind loading conditions to 500. This Outdoor Single mode FTTH Drop Fiber Optic Cable provides a proper connection for FTTH networks, the operation is simple; the use is more convenient, greatly improving the working efficiency.
