

South African Standard for Grade 1 Construction Site Electrical Distribution Boxes

Overview

This fact sheet explains how to apply the requirements shown in AS/NZS 3012:2019 Electrical installations – construction and demolition sites (AS/NZS 3012:2019), which is called up as a mandatory standard by section 163 of the Work Health and Safety Regulation 2025 (WHS Regulation). The single most important document governing electrical installations in South Africa is SANS 10142-1: The Wiring of Premises, commonly known as “The Wiring Code. ” This standard provides the comprehensive framework for every aspect of an installation, including the selection, wiring, and protection. The South African Bureau of Standards (SABS) is the National Standards Body mandated to develop, promote and maintain South African National Standards (SANS). “Given the lockdown measures in place, SABS has had to review its operational model to ensure that it continues to develop national.
