AI Overview

Molded cable tray prices in Vietnam vary depending on material, size, and type, with competitive options available from local manufacturers and suppliers. Overview of Cable Tray Pricing in Vietnam

Molded cable trays, commonly used for electrical wiring in industrial and commercial projects, are available in various materials such as stainless steel, galvanized steel, and powder-coated steel. Prices are influenced by tray type (solid bottom, perforated, ladder), dimensions, and surface treatment (hot-dip galvanizing, electro-galvanizing, or powder coating).

Supplier Options

Dong Kwang Vina: A leading manufacturer in Nhon Trach, Dong Nai, offering a wide range of cable support systems including molded trays, ladder trays, and solid bottom trays. They emphasize competitive pricing and high-quality products suitable for industrial and commercial projects.

Price Considerations

While exact prices are not publicly listed, typical factors affecting cost include:

- Material:** Stainless steel trays are generally more expensive than galvanized or powder-coated steel.
- Tray Type:** Solid bottom trays are usually pricier than perforated or ladder trays due to material usage.
- Dimensions:** Larger width, height, or length increases the price.
- Surface Treatment:** Hot-dip galvanizing or powder coating adds to the cost but improves corrosion resistance.

For accurate pricing, it is recommended to contact suppliers directly with specifications such as tray type, dimensions, material, and quantity. Many suppliers provide custom quotes and bulk discounts.
