

Which companies produce optical modules

AI Overview

Leading manufacturers of optical modules include InnoLight Technology, Coherent, Eoptolink, Huagong Tech, Accelink, and Applied Optoelectronics (AOI). Top Global Optical Module Manufacturers

InnoLight Technology (Zhongji Innolight) – Headquartered in Suzhou, China, InnoLight is a global leader in high-speed optical transceivers, including 100G, 200G, 400G, and 800G modules. They serve cloud hyperscalers and telecom networks, providing solutions for AI clusters and data centers.

Coherent (formerly Finisar) – Based in Pennsylvania, USA, Coherent manufactures a wide range of optical components, from VCSEL/EML laser chips to finished transceivers, catering to telecom and comprehensive optical applications.

Eoptolink – Established in Chengdu, China, Eoptolink specializes in high-performance optical modules and devices for ICT industries, including data centers, FTTx, LTE, and smart grids.

Huagong Tech – A Chinese manufacturer focusing on optical modules for telecom and data communication networks, providing high-speed solutions for backbone and core networks.

Accelink – Another major Chinese optical module supplier, Accelink produces modules for 5G fronthaul, midhaul, backhaul, and data center applications.

Applied Optoelectronics, Inc. (AOI) – AOI specializes in high-speed optical components, including lasers and transceivers, serving data centers, telecom, and cable TV industries globally.

Linktel and CIG Shanghai Co., Ltd. – These companies are also recognized for producing optical modules and related components for high-speed networking and telecom applications.

Additional Notable Manufacturers

- Zygo** – Known for high-energy laser components and precision optical systems.
- UltraFast Innovations** – Specializes in advanced optical technologies, including biomedical optics.
- Edmund Optics** – Offers custom and volume-manufactu...

Top 10 Global Optical Modules in 2023: Chinese

Recently, LightCounting, a market research institution in the optical communication industry, released the latest version of the 2023 global optical

Latest Ranking Of Top 10 Global Optical Module Suppliers

Recently, LightCounting, a well-known market research organization in the optical communication industry, released the latest issue of its market report and updated the TOP10

Chinese Optical Modules Own 7 of the Top 10 Seats. So Why Are

Seven of the global top 10 optical module suppliers in 2024 were Chinese companies (including Source Photonics, acquired by Chinese capital). Innolight and Eoptolink are estimated by

Top 24 Optical Materials Companies

Top 24 Optical Materials Companies 1. Edmund Optics Website: edmundoptics
Ownership type: Private Headquarters: Barrington, New Jersey, United States (USA)
Employee distribution: United

Global Optical Module Suppliers TOP10 Ranking Changes

Looking at the recently released 2023 Global Optical Module TOP10 list, Chinese companies even occupy seven seats, with Xutron Technology ranking first for the first time and

Top Opto-Semiconductor Manufacturers : Market Share Report

Compare the world's leading opto-semiconductor companies. Our analysis covers market share, CAGR (11.4%), and vendor evaluations for Broadcom, Onsemi, and more.

Top 28 Optical Communication Systems Companies

Want to Find More Optical Communication Systems Companies? If you want to find more companies that provide optical transceivers, networking equipment, and communication solutions you can do so

Optical Component Startup Tracker

The number of venture-backed optical component startups has exploded - the Optical Component Start-Up Tracker identifies these companies and their value propositions.

Top Optical Modules Companies & How to Compare Them (2025)

Lumentum: Leading provider of high-speed optical modules with a focus on data centers and telecom. Ciena: Known for innovative optical networking solutions and scalable modules. Infinera:...

Home Page Omdia

Omdia, part of Informa TechTarget, Inc., is a global analyst and advisory leader that helps you connect the dots across the technology ecosystem. Our deep

Top 10 Leading Companies in the Global Optical

The company is pushing boundaries in coherent optics, pluggable modules, and optical transport innovations. Strengths: Market influence and

Which publicly traded companies manufacture optical chips for optical ...

Optical Device & Material Companies (Supporting Layer) This category provides fundamental materials and single-function optical components, which are essential but do not

World Top 8 Best Optical Transceiver Manufacturers

The global optical transceiver market was valued at \$7.18 billion in 2020, and it is expected to reach \$14.3 billion by 2026 and \$27.25 billion by

Top 10 Optical module manufacturers in the World 2025

Are you curious about which optical module manufacturers stand out in today's competitive market? Understanding the top factories is crucial for making informed decisions. By knowing the best

Optical Transceiver Companies

Cisco Systems, Inc. offers optical transceiver modules used in various networking applications, ranging from campus to data centers to service provider networks. Its pluggable optics innovation,

Which listed companies manufacture optical module chips?

Optical component suppliers, both publicly listed and privately held, that provide key components to optical module manufacturers. Contract manufacturing companies, such as Fabrinet

Top 10 Optical Transceiver Manufacturers in the World

Sourcing optics for your data center? Discover the top 10 optical transceiver manufacturers in 2026. Compare global giants and factory-direct OEM alternatives.

10 companies in the optical transceiver industry chain 2024

To help you choose the best partner, this article will analyze and introduce 10 companies in the optical transceiver industry chain for you.

Top 10 Optical Module Manufacturers' Annual Reports ...

By 2025, its 800G optical module shipments will exceed 5 million units, making it the global "shipment champion" in the optical module industry, demonstrating significant economies of

Top Optical Transceiver Manufacturers List (2024)

The optical transceiver industry constantly evolves, with new companies appearing almost daily. This list of optical transceiver manufacturers

Optical Transceiver Market: Top 10 Manufacturers Ranked

Optical transceiver market leaders: the top 10 manufacturers powering 400G and 800G modules for hyperscale data centers and AI networking.

How many listed companies are there that manufacture optical module ...

How Many Public Companies Produce Optical Module Chips? The question "how many public companies produce optical module chips" cannot be answered with a single fixed number,

Top 10 Leading Companies in the Global Optical

Accelink Technologies is a leading provider of optical communication devices, specializing in the design, manufacturing, and marketing of optical

Silicon photonics and co-packaged optics at the heart of

While linear-drive pluggable modules remain competitive, CPO is expected to offer unmatched customization and scalability, with large-scale

The latest ranking of the TOP10 global optical module suppliers ...

LightCounting pointed out that optical module suppliers headquartered in China are starting to move some of their manufacturing to their home country or other countries in Asia. Huawei

Top 10 Optical Module Brand & Manufacturers

Find the Top 10 Optical Module brand, manufacturers, and exporters. Get the contact details and addresses of companies producing Keywords.

Top 100 Optical Component Manufacturers in 2026 | ensun

Discover all relevant Optical Component Manufacturers worldwide, including Zygo Corporation and UltraFast Innovations GmbH
