

Which company offers the best fiber optic cables for smart buildings in East Asia

AI Overview

Leading East Asian manufacturers for smart building fiber optic cables include Weichuang Optics, FiberHome, Yitong, and FiberTek, offering high-quality, ISO-certified solutions for data centers, 5G, and AI-driven networks.

Key Manufacturers

Weichuang Optics (Jiangsu, China) Weichuang Optics operates a 20,000 m² facility with over 35 production lines and 300 trained staff, producing fiber optic cables, connectors, and patch cords tailored for data centers and smart building applications. Their products comply with ISO9001:2015 standards, ensuring durability, low insertion loss, and high transmission capacity. They are trusted by major operators like China Telecom, China Mobile, and China Unicom, and their cables are suitable for BBU-to-AAU connections in 5G networks.

FiberHome (Wuhan, China) FiberHome specializes in ultra-low-loss hollow-core fiber and AI-driven network solutions. Their offerings focus on high-efficiency infrastructure for smart buildings, supporting AI compute interconnects and digital transformation projects. FiberHome emphasizes reliability, scalability, and integration with next-generation smart building networks.

Guangdong Yitong Fiber Optical Cable Manufacturer (China/Singapore) Yitong provides premium fiber optic cables such as GYTA, GYXTW, ADSS, and Drop Cable, widely used in Southeast Asia for smart city and data center projects. They offer factory-direct pricing, OEM services, and fast delivery, making them a preferred choice for ISPs and telecom operators.

FiberTek (Asia-Pacific) FiberTek supplies fiber optic cables, patch panels, and test equipment suitable for harsh environments and direct burial installations. Their FUTGCP uni-tube cables feature water-blocking gel and steel tape armoring, ideal for smart building infrastructure requiring robust, secure, and compact cabling solutions.
